Client First Program

Customer Satisfaction

Atlas began working with Market Trends Pacific to survey clients on our performance. We started to gather positive comments and wanted to share what our clients are saying about us!

"Two recent events lead to the rating I gave. Recently on a house purchase in HI, I asked my mainland broker to obtain insurance and he was declined by Pure. I turned to Atlas and received coverage from Pure largely due to Chris Smith's effort to educate the company. Secondly, on an auto purchase I need coverage within 24 hours - he provided it. "

Joseph & Debra J.

"Cynthia Ho has been great to work with...thank you."

Recognized for Excellence

Our January Toastmasters meeting was a special one as we were joined by our Area Director for an official club visit and evaluation. These visits are designed to assess how clubs are doing overall and to recognize strengths while offering guidance for continued growth. We're proud to share that Atlas 'Ōlelo Hui Toastmasters received an overall rating of "Far Exceeds Expectations," with multiple areas noted as exceptional.

The Area Director highlighted our strong first impressions, especially the welcoming environment created for new and returning members. One standout practice that was praised was how meeting functionaries clearly introduce their roles as part of the agenda, helping everyone understand how the meeting flows and how members contribute to its success.

Our club was also recognized for excelling in fellowship, variety, and communication, as well as program planning and meeting organization. These acknowledgements reflect the intentional structure of our meetings and the balance we strike between learning, engagement, and community. Even with minor technical challenges during the meeting, the overall experience was noted as smooth, organized, and professional.

Another major positive takeaway was our commitment to achievement recognition. The use of trophies for Best Speaker and Best Table Topics, along with our efforts to celebrate member progress, was specifically called out as a strength. Additionally, the report recognized our proactive approach to maintaining membership strength, especially as we continue to adjust and grow following recent organizational changes.

Overall, the feedback affirmed that Atlas 'Ōlelo Hui Toastmasters is a well-run, supportive, and high-performing club. Recognition like this reflects the collective effort of our members and officers who consistently show up, volunteer, and support one another's growth.

As we move forward, this feedback gives us confidence that we're on the right track and motivation to continue building an environment where communication skills, leadership development, and community thrive.
